

Hey kids

create and colour your own family crest

Think of things that represent your family - draw them on your family crest and then colour them in. To start you off think of things your family likes doing together, or the place you live ... is it by a river or the sea or a mountain? What do you like to do in the weekends? Now draw them. Keep thinking I'm sure you will think of lots of things you can draw on your family crest. Have fun.
